

MPHUSKY CABL-BUS

Available Voltage & Current Ratings

KEY

Green	Definite Cost Savings on these Available Ratings
Yellow	Possibly Available or Economical, Consult Factory
Red	Outside Practical or Economical Range

MPHusky Cabl-Bus Features:

- Engineered System with the industry exclusive Inductive Reactance Calculations available upon request for the design engineer.
- High fault capacity. Cabl-Bus is certified up to 100kA RMS Symmetrical and has been tested up to 120kA RMS Symmetrical.

- Lowest Installation Costs of any cable bus duct on the market, with the industry exclusive straight cable runs. No cable transpositions within the housing, regardless of run length. Installation savings of 10% top 25% depending on run length and cable size.
- Widest available range of Voltage Class and Ampere Ratings in the industry.
